## VILLA HEADS AN ARMY OF 10,000 NEAR CHIHUAHUA

PRESENT MOVE MAY MEAN SUPREMACY OF NEW LA-BOR PARTY AND ELIMINATION OF DEFECTOS

REBEL'S ACTIVITIES INSURES TROOPS REMAINING

MEXICAN SITUATION MORE SERIOUS TODAY THAN IN MANY MONTHS

(By Associated Press)

Columbus, N. M., Oct. 26.—Bandits operating near Miniquipa, only 25 miles south of the American expedition's outpost, have demanded the shortening of the American supply line and the gradual evacuation of Mexican territory by the United States army. Americans coming to the border from Mexico today reported.

Washington, D. C., Oct. 25.—Villa attacked near Chihuahua had, in effect, today, of convincing officials that no thought should be given to the removal of garrisons from this border patrol duties or the withdrawal of Gen. Pershing's column from Mexico. Fear was that if Villa should succeed in his apparent movement to capture Chihuahua he might find it easy to get control later of nearly all of northern Mexico. The entire Mexican situation was today regarded more serious than for many months.

Conditions at Chihuahua were the subject of conflicting and sensational reports. Mexican Ambassador Arrandondo received from General Garcia at El Paso, a despatch from Gen. Trevino, Carranza commander at Chihuahua, that he was short of ammunition and intended to evacuate the city. Villa's army is said to number 10,000 now.

Trevino Is Ready.

General Jacinto Trevino, his defending force augmented by 1,000 picked Carranza troops, wired today that he is ready for anything and says it is impossible for the Villa rabble to capture the place.

War officials here were concerned about Trevino's reported shortage of ammunition.

**"BAD LANDS" ROLLED IN BOOZE BARRELS TO OLD NORTHEAST**

**NEW WEST IS NOW IN GOOD SHAPE, COMPARED WITH "OLD COUNTRY," SAYS "DRY" ADVOCATE**

(By Associated Press)

Norwich, N. Y., Oct. 26.—The bad lands of this country are no longer limited to the new West, but have been rolled in liquor barrels to the old northeast. Jimmie Sandford, president of the dry-pressure league today, said New York already was the most popular region among unionists. The report came from Pennsylvania. "They do there," he said, "have been rolled in barrels from the wild and wooly west and the bottom of the bottomless hole." He added: "I am glad to see that the dry pressure has been so successful in the West."

The commander of the Chihuahua garrison has issued orders to residents to leave the city, according to a report that reached army headquarters today from General George Bell at El Paso. General Bell said Mr. Trevino was among the main refugees who have arrived at El Paso from Chihuahua.

General Funston when questioned directly regarding the persistent reports that Chihuahua City had fallen to Villa declined to confirm the reports and stated that so far as he knew, it was not true.

**Rumor From Washington**

General Gomeses at Juarez announced the receipt of a message from General Trevino stating that all was quiet there and authorizing him to deny "furious terms" the report that the city had fallen before an attack by Villa.

Mexican Council Garcia, at El Paso, said tonight that he had been advised by General Trevino of the report at Chihuahua of troop trains bringing about 1,000 men under General Mayette to reinforce the garrison.

## Bread Prices Again Soar as Flour Aviates

Chicago Oct. 26.—Bread prices for bread within the next two days will again be reflected in increases of the Master Bakers' association today following increases in the cost of flour. Chicago bakers will soon be meeting Saturday night in an effort to induce Chicago's commissioners to take a movement on the subject of the shipment of wheat.

## ANTIS GO ON RECORD FOR NATIONAL PROHIBITION

(By Associated Press)

Oklahoma City, Okla., Oct. 26.—Recommending the national prohibition bill "passed today with the united cooperation of the Oklahoma and National Anti-Saloon League officers."

While the committee reported its findings on the floor of the convention floor of the demonstration group voted with the "Yea." The measure passed unanimously.

A 36-1 resolution was adopted that the state legislature at its next session give a bill providing for the removal from offices of all state and county officers guilty of drunkenness was also passed unanimously.

A bill of this kind was proposed at the last legislature but failed to receive a vote.

REED, PRIMED WITH SPEECH, LANDS IN CHICAGO

Chihuahua, Oct. 26.—Theodore Reed, 30, to be paired for one of the most important speeches of the day, addressed a gathering of 1,000 men and women here last evening. All sorts of characters in the audience.

In Theodore's usual uniform, his own countenance and address becoming, and several associations having already taken place, the crowd at the rally.

## NORMAN PARALYSIS VICTIM IS RECOVERING

Oklahoma City, Oct. 26.—The arrival of Carl Price, the victim of the Norman Paralysis at Norman, a victim of infantile paralysis, was reported to be improved.

It is said that the paralytic disease has been arrested in America during the past week by partial casting in nothing except casting, through complete loss of tone, according to certain physicians who received his advice. Doctors in 100 cases have been recovered rapidly by the method.

But physicians have generally used a different method.

Today, more than half of the patients here have been arrested in America during the past week by partial casting in nothing except casting, through complete loss of tone, according to certain physicians who received his advice. Doctors in 100 cases have been recovered rapidly by the method.

As far as the disease is concerned, the disease has been arrested in nothing except casting, through complete loss of tone, according to certain physicians who received his advice. Doctors in 100 cases have been recovered rapidly by the method.
